An additional photo from the Klose-BBQ archives in Houston, Texas, pictures what may be one of the World's Smallest Fully Functional BBQ Pits. It is a 2" diameter smoker with a firebox, and the entire length is only 5 inches, enabling you to hold it in one hand. It only weighs two lb.

Hailed by owner, DAVID KLOSE, as a pocket pit, David hopes to start a whole new category of Championship Cooking with this pit called Weight Watchers. It cooks with one charcoal or pecan at a time, & has been seen at cook-offs as far as Memphis, TN, Las Vegas, & Dallas, Tx. cooking anything from deer sausage to biscuits, & even mini-burgers. Atta-boy Dave! For a free catalog on unique cooking grills or smokers, contact BBQ PITS by KLOSE at 1- (800) 487-PITS or 1-713-686-8720
