

### **BBQ Pits by Klose Mark 24 Tigerfish Torpedo BBQ Smokers**

Well, as it turns out, we have just completed the first of two 18ft 2 ton Torpedo BBQ smokers, and now it's ready for paint booth finishing. An automotive high resin Black with reducers & hardeners, then four clear coats with resin to look 3D effect.

**Weight: 3950# and 18 1/2 feet long by 2 foot wide**

I expect after we finish filming our BBQ TV special we will add one of them to a Mobile Trailer with a polished Stainless Steel floor, add-on equipment, maybe even a roof, with a 3/4" Granite 3 ft tall Plaque to our Military. The Torpedo's are 24", reduced the last 7 foot from 24" to 6", with dual SS Scorpion Propellers that turn at 80 revolutions a minute. We added a smoke generating machine made for the Hollywood stage, to produce smoke & cavitate 20ft behind the Tubes by wireless trigger.

**Submerge Arc welding the reducers for the rear assembly's**

**The Base stands with 8" wheels recessed weigh 1000 # each.**

**BARBECUE PITS BY KLOSE-DELIVERY WORLD WIDE for 2010**
